

VIRTUAL TOWN HALL

Q&A Session with Children's HealthSM Andrews Institute for Orthopaedics & Sports Medicine, The Heart Center at Children's Health and Pediatric Cardiology Specialists of Houston: Return to Play

Thursday, Sept. 17 | 4 p.m.

Much has changed in the world, but our commitment to providing safe, world class care for your child remains the same, as it has for more than 100 years. We know there are many questions regarding your child safely returning to sports during COVID-19.

Join us on Thursday, Sept. 17, for a live video chat to hear from our experts about a safe approach to return to play. Ask questions about COVID-19 and sports as you and your family navigate this uncertain time.

Hear from the Orthopedics and Cardiology teams:

- Josh Adams, MS, CSCS*D, NSCA-CPT, EXOS Sports Performance Manager, Children's Health Andrews Institute
- Clarisa Garcia, M.D., Medical Director, Pediatric Cardiology Specialists of Houston, a Children's Health Care Network partner
- William A. Scott, M.D., Director, Cardiac Electrophysiology, The Heart Center at Children's Health, Professor at UT Southwestern
- Troy Smurawa, M.D., Director of Pediatric Sports Medicine, Children's Health Andrews Institute
- Brittany Wehrle, MS, RDN, CCSD, LD, Performance Dietician, Children's Health Andrews Institute

What Return to Play

When Sep 17 2020 4:00 PM - 5:00 PM (CDT)

We look forward to your participation!

DISCLAIMER

Please note: When you log into Zoom Video Communications, your name will appear on the video. As a participant, you (i) acknowledge that the question and answer session is a public forum and (ii) agree to the display of your name and the disclosure of any information, including patient health information, that you have shared in the presentation. Children's Health will not be sharing information about any individual patients during this presentation. Children's Health is and will not be responsible, in any way, for the information discussed during the presentation. The expert care team is providing their own advice, judgment and opinions.

Nothing in the presentation will be deemed, in any way, as providing medical advice and/or treatment to you and your family. Your participation in the presentation does not establish a physician-patient relationship. Any specific questions and treatment needs that you have for yourself and your family should be discussed with your own provider.
